

Renewing your air brake endorsement

Renewing your driver's licence with a (Z) endorsement BEFORE September 1, 2023

Current rules are still in effect, and you must complete the air brake knowledge test through the City of London.

Renewing your driver's licence with a (Z) endorsement ON or AFTER September 1, 2023

You must complete the air brake learning module online prior to coming to my City of London monthly licence renewal session.

As of September 1, 2023, the air brake knowledge test will no longer be a requirement for renewals.

You must have your driver's licence with you to start the online learning module.

After completing the online learning module:

- download a digital copy or print the Certificate of Completion
- bring the digital or printed copy of your Certificate of Completion to Steve Avery when notified to attend the City of London licence renewal session
- we will complete the vision test and commercial class knowledge test (A, B, C, D, E, or F) in the City of London licence renewal session
